The Notation of Content (NOC), rather than the title of the document, is used to provide a more exact description of the subject matter. The NASA, AIAA, or LC accession number is included in each entry to assist the user in locating the abstract in the abstract section of an individual issue of *Aerospace Medicine and Biology*. If applicable, a report number is also included as an aid in identifying the document.

Typical Personal Author Index Listing

The Notation of Content (NOC), rather than the title of the document, is used to provide a more exact description of the subject matter. The NASA, AIAA, or LC accession number is included in each entry to assist the user in locating the abstract in the abstract section of an individual issue of *Aerospace Medicine and Biology*. If applicable, a report number is also included as an aid in identifying the document.
